

## From a Provincial Point of View

### Summer Feedback 2012

Ken Cheveldayoff

We have seen Saskatchewan grow significantly over the last five years. The Government of Saskatchewan wants to ensure that we see this growth for years to come. We know that we cannot do this alone, we want your input to see what you want Saskatchewan to look like in the coming years.

How do we ensure that this growth continues?

How do we meet the challenges and opportunities of growth?

I would greatly appreciate if you would take a few minutes to respond to the following questions and email your answers back to me.

1. What long-term goals should the government aim to achieve?
2. What strategies/policies should the government pursue to achieve those goals?
3. What short-term measures should the government take to address the more immediate challenges of growth?

Thank you very much for taking the time to provide summer feedback.

Regards,  
Ken Cheveldayoff, MLA
